ACADEMIC INFORMATION

The purpose of this program is to provide an immersive study abroad program for advanced students completing the Spanish minor or major. The program consists of two courses: Advanced Immersion in Costa Rica and a four week internship in San Jose, Costa Rica.

SP 372 ST ADVANCED SPANISH IMMERSION (4 CREDITS)

Designed to be taught over the course of a 12-week period, this intense hybrid course begins seven weeks prior to the study abroad experience. Students will prepare for their Spanish internship by learning pertinent vocabulary, interview techniques as well as reviewing cultural facts, figures and statistics designed to prepare them for the immersion experience. Once in the study abroad location, students continue to acquire communication techniques while applying their conversational skills with daily assignments.

SP480 SPANISH INTERNSHIP (3 CREDITS)

International Studies Abroad will provide students with internship placements and follow-up tracking for the four-week internship experience.
